COLLEGE RECRUITING

THE INSIDE TRACK...

Our Academy and Professional coaching staff has over 20 years of combined college coaching and recruiting experience. Read on to learn more about the details that REALLY MATTER in the recruiting process...

COMMUNICATION IS KEY

Communicating with college coaches in the right manner is a KEY part of the process. It might seem unimportant to you but coaches will make judgements based on the language you use, the politeness of your messages, and how quickly you respond. See this as a job interview. DO NOT make a coach have to chase you up. You are competing against hundreds of other players, so DO NOT give a coach a reason to move onto the next student-athlete.

Don't get hung up on waiting for a college coach to setup an 'official' visit for you. You and your family MUST lead the recruiting process and you can unofficially visit your ideal colleges at any time to get a feel for the place. Attending our Tormenta College ID Camp, as well as specific college ID camps are a great way to get on campus, and meet the coaching staff. Coaches are only likely to setup official visits later in the process

THE RIGHT SCHOOL

As you make your 'top colleges' list, be sure to be realistic and open-minded. Speak to your Tormenta coaches to gauge the ideal level and program you should be targeting. There are hundreds of excellent programs nationwide within NCAA, NAIA, and NJCAA, so do not get fixated on NCAA DI if it's not the right fit for you. This is YOUR process, YOUR future, and YOUR soccer career. Find a school that matches your academic, athletic, and personal goals.

A gap year should be seen as Plan B. If you stay on top of YOUR recruiting process starting in your Sophomore year, you should be in a good position to commit to your ideal school upon graduation. If you decide to take a gap year it is essential you maximize the additional time. Use this time to get on top of all the details you missed previously in your recruiting process and DO NOT leave anything to the last minute.

SHOULD I TAKE A GAP YEAR?
