1.2. Tryout Events:

1.2.1. Event names, dates and locations of all camp, competitions, and camps to be used as part of the selection process:

- *Ongoing and Prior Events*
 - 2017 – 2023 USA Softball Selection Trials, National Training Camps, National Team exhibition games, and National Team International Competitions.
 - 2017-2023 Professional Fast Softball Pitch games domestic and International.
 - 2017-2023 College games at all levels.
 - 2017-2023 USA Softball National Championships, League, and Invitational Events.
- *2023 USA Softball Women's Camp ("Camp") *, currently scheduled for June 12-15, 2023 in a location yet to be determined. Invitations for the camp will be sent out to athletes sixty (60) days prior to the event.*

** In the event of inclement weather, unplayable field conditions, or an athlete safety issue that may affect the Camp, USA Softball may need to adjust the time and duration of the Camp or cancel the Camp, depending on the severity of the playing and field conditions.*

1.2.2. Describe how athletes qualify for the events listed in 1.2.1.:

- Ongoing Screening for Membership in the Women's National Player Pool.
 - From time to time, one (1) or more members of the WNTSC *may* observe athletes at various events including, but not limited to, open exposure events, professional softball competitions and

events, interscholastic softball competitions and events, club or league softball events, and events coordinated by USA Softball. However, if any of the events listed below have been televised or videotaped, or data collected in another manner, the committees can use those resources as a means for screening. This screening is an ongoing process and will continue throughout the year. Observation by members of the WNTSC or data available from such events is solely for the purpose of general scouting except as indicated above in 1.2.1. The committees will not be individually evaluating each athlete competing at each event. Instead, general scouting will be conducted so that athletes can be identified who perform at a level which the committee believes is competitive in the current international field based on the criteria in Section 2. Players identified through the ongoing screening process will be considered for placement in the Pool by the WNTSC (See Section 11.). As a result, it is possible that each athlete being considered in the pool may not have been observed at the same screening events or as many screening events as other athletes also being considered for that particular pool.

- Membership in Women’s National Player Pool.
 - Athletes are eligible for selection to the USA Softball Women’s National Player Pool (“Pool”) if they meet the eligibility requirements in Section 1, however eligibility for selection to the Pool does not automatically guarantee placement in the Pool.
 - Athletes must be a member of the Pool to be selected to attend the Camp listed above in Section 1.2.1.
 - Athletes who are members of the pool shall include the following;
 - Athletes selected as a member of a USA Softball Women’s Team during the time of 2017 – 2023.
 - Athletes identified through the ongoing screening process described above and selected for inclusion in the Pool by the WNTSC.
- Selection as a member of the Pool in the 2021-2023 quadrennium does not guarantee selection to the Pool in other quadrenniums and does not guarantee that such athlete will be selected to participate in any USA Softball programs during the quadrennium, including those programs described in these selection procedures. Athletes may be added to the Pool throughout the quadrennium prior to the respective events each year.

1.3. Step-by-step description of the selection process for these Games (include maximum Team size):

- Observation of Athletes.

- At the Evaluative Events described in Section 1.2.1. above, one (1) or more members of the WNTSC, may observe and evaluate athletes. However, if no committee member is/was present at an event, if any of the events listed in Section 1.2.1. have been televised, videotaped, or data collected in another manner, the committees can use those resources as a means for observing. Observation and written evaluation duties may be divided among the members of the WNTSC and each member's observations will be reported to the other members of the WNTSC. Athletes will be observed in order to develop information about the athletes with regard to the Selection Criteria. It is intended that the observation of athletes will be an ongoing process and that all observations at events listed in 1.2.1, could be considered.

Selection of Pan Am Games Team - Utilizing the events in section 1.2.1 and using the criteria in Section 2, the athletes will be force ranked by position in each category. The highest ranked player by position will be ranked with a score of 1. If an athlete is the highest ranked player at two positions the committee will choose, based on the criteria in section 2 and the needs of the team, which position to select her for and then re-force ranks the second position to come up with the highest ranked player. Once the highest ranked player is determined at each position (For example, P-1, C -1, 1B-1, SS-1, 2B-1, 3B-1, OF-3) the remaining ~~6~~ 7 players for the 2023 Pan Am Games Team (for a total of ~~15~~ 16) will be selected based on the needs of the team using the criteria in Section 2. Once the final roster of ~~15~~ 16 athletes for the 2023 Pan Am Games Team is selected, the rest of the athletes from the pool will be considered as replacement athletes. These ~~15~~ 16 players will be announced on or before September 1, 2023

2. DISCRETIONARY SELECTION (if applicable)

2.1. Rationale for utilizing discretionary selection (if any):

The sport of softball is not a measured or timed event. In the selection of athletes who will compete together as a team, it is difficult to make a selection decision based solely upon objective criteria. It is the belief of USA Softball and the Women's coaching staff that considering a mix of Selection Criteria set forth below, which includes subjective components as well as objective statistical measures in evaluation of performance ability, will result in selection of the best athletes who will work together as an effective team and contribute to team success. This section

will be used for the selection of athletes for the Team and for the replacement athletes.

2.2. Define the discretionary criteria to be used (if any):

- In evaluating athletes, the WNTSC will use a standard evaluation document at camp and for events listed in Section 1.2.1. It will be consistent in content with the Selection Criteria listed below and data collected from the events in Section 1.2.1. Additionally this same criteria will be used when evaluating athletes' performances at the other events listed in 1.2.1:

Offensive Performance

Batting

- Batting statistics
- Batting average
- On-base percentage
- Hard hit average
- Slugging percentage

Batting observation

- Ability to make appropriate decision based on specific situations (for example, bunting, hitting to advance runners, etc.)

Running

- Speed (timed)
- Base running
 - Decision making
 - Efficiency

Defensive Performance

Fielding Statistics (objective)

- Fielding percentage

Fielding Observation (subjective)

- Glove work per position
- Foot work per position
- Arm strength per position
- Throwing accuracy per position
- Depth judgement on balls hit to fielder (spacing ability)

Communication with other players

- Instincts for necessary adjustments / positioning on the field.

Pitching Performance

Pitching Statistics

- WHIP
- ERA
- Batting average against (RH vs LH)
- Pitches per inning
- Strike-out to Walk ratio
- Velocity by Radar Gun

Pitching Observation

- Pitch movement and control
- Situational Pitching
- Mound Presence and instincts
- Ability to adjust
- Pitcher/Catcher Relationships

Judgment

Communication with other players

Instincts for necessary adjustments/positioning

- Other Considerations

Teamwork – willingness to accept role that leads to team success

Enthusiasm – energy and support of teammates

Versatility – balance between offense and defense as well as the ability to play other positions to fulfill multiple roles

Maturity – ability to adjust to situations dealing with adversity, accepting things that don't go well and reacting appropriately;

Team Composition - The intended direction for the particular team (for example, if the team is intended to be primarily a power hitting team);

- 2.3. Name of the committee that will be responsible for making discretionary selections, along with a complete list of the members' titles:

The Women's National Team Selection Committee, which includes four (3) at-large members, the head coach of the Women's National Team, and two (2) duly elected athletes are responsible for making all athlete selections for the team.

2.3.1. Process that will be used to identify and handle any potential conflicts of interest involving a member of the committee:

All members of the selection committee must comply with USA Softball's conflict of interest policy, to include completing and submitting a disclosure form for review by the USA Softball's Ethics Committee prior to convening the committee.

Any member of the selection committee who has an actual, possible, or perceived conflict of interest must disclose it to USA Softball's Ethics Committee prior to the start of the selection process and/or recuse him/herself from the review process and/or voting. A conflict of interest exists when a personal, family, financial, professional, club, team or business interest of the committee member poses a direct or indirect relationship, connection, or affiliation, past or present, with an athlete in contention for the applicable team selection that could compromise the committee member's ability to participate in the selection process in an unbiased manner. If a conflict exists, USA Softball's Ethics Committee shall review the conflict and determine the committee member's level of involvement (e.g., whether that committee member must recuse him/herself from participating in discussions and/or voting). For example, if it is determined that a committee member must recuse him/herself from voting, the Ethics Committee may still determine that a committee member who has relevant and necessary information with respect to athlete performance, for example a national team coach or high performance director, may, if requested by the selection committee, provide such information to the committee so long as such information is provided in a fair and unbiased manner and so long as the committee member with the conflict of interest does not vote toward the final decision. The committee member must not otherwise influence other members of the committee in the selection process.

Additionally, any person (including any potentially impacted athlete or coach of a potentially impacted athlete) with a good faith belief that a committee member has a conflict of interest may report the alleged conflict of interest to USA Softball's Ethics Committee. Reports may be made anonymously. No committee member shall retaliate in any way against a person who, in good faith, reports an alleged conflict of interest.

Any recused individual shall be replaced in accordance with USA Softball selection committee appointment process.
